Estimated hours per pay period: _____ **this # is not weekly schedule x2**

(To calculate hours per pay period multiply weekly hours by 52 weeks then divide by 24 pay periods. For example the hours per pay period for a part-time employee working 25 hrs/week = 54.16hrs per pay period. [25x52/24=54.16] This unique data is required for all hourly or salaried employees in order to comply with Affordable Care Act reporting.)

Check One **Exempt** (not entitled to overtime pay) **OR** **Non-Exempt** (entitled to overtime pay per FLSA)
(refer to [CA Exemption Worksheet](#) or the *California Division of Labor Standards Enforcement's* website at dir.ca.gov/dlse for guidance on exempt or non-exempt status)

California law states that an employer cannot pay someone on salary, even if they are otherwise eligible to be treated as "exempt from overtime," unless their total compensation is at least double the equivalent of full-time compensation at minimum wage. For 2019: \$49,920 (\$12/hr x 2080 x2)

For full or part-time clergy or lay employees paid an annual amount of less than \$49,920 it is best practice to set up payroll with an hourly rate, maintain timecards and report hours for pay on the semi-monthly Timesheet for Diocesan Payroll. Paychecks will be issued when hours are reported by employer to the Diocesan Payroll Service. If you establish payroll as an amount per pay period for an employee whose annual compensation is less than \$49,920 it is understood that you are maintaining timecards locally and reporting wage adjustments as needed.
