

How Does YOUR Parish Care for Creation?
How can YOU be Environmental Stewards?
Here are some actions YOU can take NOW!

- ✓ A008 Continuing the Advisory Council on the Stewardship of Creation -- Check out the small grants program to support local and regional eco-ministry efforts
- ✓ A010 The Planting of "Paris Groves" -- plant trees at church-owned properties
- ✓ A014 The Use of Carbon Offsets – reduce reliance on fossil fuel-based transportation
- ✓ A018 Episcopalians Participating in Paris Climate Agreement -- make intentional decisions about living lightly and gently on God's good earth through energy conservation, renewable energy, sustainable food practices and gardening
- ✓ A213; B025 Promote Energy and Water Efficiency; Water as a Human Right -- phase out the sale or distribution of bottled water in Church-related facilities and at Church events
- ✓ C008 Advocacy for Creation Care -- Use "Sustaining Earth, Our Island Home," the new, free web-based carbon tracking tool for Episcopalians at www.diocal.org/climate
- ✓ C020 Carbon Tax -- support public policy such as Carbon Fee and Dividend; invite a speaker from Citizens Climate Lobby or host a chapter meeting at your facility www.cizensclimatelobby.org
- ✓ C063 Advocate for Ocean Health -- prevent and remediate ocean pollution from all sources and of all kinds; choose sustainable seafood www.seafoodwatch.org
- ✓ D053 Stewardship of Creation with Church-Owned Land -- collaborate with partner agencies to care for creation and sequester carbon through regenerative agriculture, biodiversity conservation, green burial, and habitat restoration
